Review of City Airport planning agreement.

Dear Sirs

I wish you to know that I object strongly to any proposal to alter the present agreement for either additional flights, passenger nos or extension of operating hours.

In fact I would ask that the present agreement is enforced particularly in commit late flights after 9.30pm.

At present I can clearly hear the Bus. jets taking off and I must be 4 miles away. The overflying of the area between Hollywood and Bangor is unacceptable and a different jet path must be found.

Many agreements have been broken in the past by the airport/airlines/and planners. not least the introduction of jet aircraft.

Please no more expansion - the airport will have to make better use of what they have.

Yours sincerely
R. Ross
