**Subject:** Flight Path into Belfast City Airport

Sirs,

I would draw your attention to the flight path taken by air traffic into Belfast. In former years the planes did not fly directly over Bangor but came up Strangford Lough, cut across to below Donagadee and then flew up Belfast Lough with Bangor on the port side.

I have no problem with noise but I am concerned about safety, especially if traffic is permitted to increase.

Brian Thompson, 33 Deanfield, Bangor, BT19 6 6NX
