PLANNING HQ ADMIN

12 January 2005

Dear Sirs

I am writing to protest about proposals currently circulating to increase passenger numbers using Belfast City Airport which, if accepted, will have the inevitable consequence of significantly increasing the levels of air and noise pollution in the Belfast area.

It is not that long ago that the commercial interests operating the Airport provided guarantees that the number of flights, aircraft size and flight times would be restricted and controlled. We were also led to believe that the majority of flight paths would be over Belfast Lough. In each instance those promises and guarantees have been repeatedly and cynically broken.

It would make a pleasant change if, for once, politicians and regulators gave due weight and consideration to the health and welfare of people instead of rewarding the greed of commercial interests. Please reject this application for an increase in passenger traffic.

Yours faithfully

MALCOLM SLOAN
