Microgeneration Permitted Development  
Consultation  
Planning Service  
3<sup>rd</sup> Floor  
Millennium House  
17 – 25 Great Victoria Street  
Belfast BT2 7BN

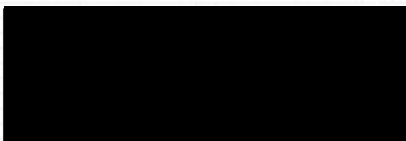

18 January 2010

Dear Sir

**Microgeneration Permitted Development Consultation**

The Department of Culture, Arts and Leisure has a policy interest in relation to salmon and inland fisheries which is relevant to the current consultation. In response to Question 72, the Department supports the proposal that there should be no permitted development rights introduced for in-stream works associated with hydro microgeneration in non-domestic land uses.

Yours faithfully

**Inland Fisheries Group**
