Application for Hazardous Substance Consent

Planning Act (Northern Ireland) 2011

The Planning (Hazardous Substances) (No. 2) Regulations
(Northern Ireland) 2015

Fermanagh and Omagh District Council Area

Derry City and Strabane District Council Area

An application has been received from Dalradian Gold Ltd for a Hazardous Substance Consent (HSC), which is part of a project that is the subject to a national environmental impact assessment and in line with the Classification, Labelling and Packaging of Substances and Mixtures Regulation (CLP). DfI Planning will decide whether or not to grant consent, and if to grant, will decide on what conditions to impose.

Application No: LA10/2017/1362/HSC

Proposal (in brief): Consent for the storage and use of sodium cyanide.

Location: Lands to the north of Crockanboy Road Greencastle, (approximately 1km to north west of Greencastle). Hazardous substance to be stored and used within the processing plant at grid reference: 258958, 384494.

The application may be viewed during normal office hours at DfI: Strategic Planning Division, 71 Ebrington Square, Derry-Londonderry, BT47 6FA. It is advisable to make an appointment before calling at the office, Tel: 02871314148. Details of the drawings and application form for the HSC may be viewed online at the Planning NI website via the link to DfI Applications Advertised page

Written representations should be forwarded to the Strategic Planning Division, 71 Ebrington Square, Derry-Londonderry, BT47 6FA or by email to planning@infrastructure-ni.gov.uk within 21 days from the date of this advertisement.
